

ERAAO ACADEMY

COURSE MODULE BREAKDOWN

Basic English • English for Freelancers • Advanced English

What is taught in every module of every course — no weekly or class-by-class scheduling.

Course 1 — Basic English

“Build a usable English foundation from the English you already know.”

Not English from A-Z — this course turns the student's fragmented school English into one usable system.

Module 1 — Reset Your English

What students learn:

- Why knowing English doesn't mean being able to use it
- The difference between knowing, understanding and using
- How English should be approached
- Removing fear of making mistakes
- Learning from context instead of translating everything
- The ERAAO learning cycle

Field	Detail
Learning Method	Understand → Notice → Use
Output	Student can explain their new approach to English and begin learning without depending on memorisation.
Student Gain	“I don't need to memorise everything. I understand how I am supposed to learn.”

Module 2 — Building the English Sentence

What students learn:

- Subject, verb, object, complement
- Basic sentence order
- Positive sentences
- Negative sentences
- Questions
- Short answers
- Sentence expansion

Field	Detail
Learning Method	Pattern recognition → Sentence construction → Variation
Output	Student creates their own sentences instead of memorising complete sentences.
Student Gain	“I know how to build a sentence.”

Module 3 — The Core Verb System

What students learn:

- Be, Have, Do
- Basic action verbs
- Helping verbs
- Modal basics
- Verb changes
- Common verb combinations

Field	Detail
Learning Method	Repeated exposure to verbs across real situations.
Output	Student uses common verbs naturally in different sentence structures.
Student Gain	"I can talk about what I am, have, do, want and need."

Module 4 — Time & Basic Grammar

What students learn:

- Present, past, future
- Continuous forms
- Basic perfect forms
- Time expressions
- When to use each structure

Field	Detail
Learning Method	Meaning first → Pattern → Grammar explanation → Practice → Communication (grammar taught after the pattern is encountered, not before).
Output	Student can talk about what is happening, what happened, what usually happens, what will happen, and what they have done.
Student Gain	"Grammar finally makes sense because I understand what it is doing."

Module 5 — Everyday English Patterns

What students learn:

- Introducing yourself, family, daily routine
- Work and study
- Likes/dislikes, wants/needs
- Asking and answering questions
- Requests, opinions, plans, experiences

Field	Detail
Learning Method	One pattern → many contexts → many variations.
Output	Student produces personalised English rather than reciting model answers.
Student Gain	"I don't need to memorise 10 lines. I can create what I want to say."

Module 6 — Listening to Understand

What students learn:

- Listening for meaning
- Recognising familiar patterns
- Understanding connected speech
- Listening without translating every word
- Identifying important information
- Context-based guessing

Field	Detail
Learning Method	Hear → Understand → Hear again → Notice → Reproduce
Output	Student understands increasingly natural everyday English.
Student Gain	"People are actually speaking English — I can follow them."

Module 7 — Speaking from Patterns

What students learn:

- Sentence transformation
- Substitution
- Question-answer patterns
- Controlled speaking
- Personal speaking
- Spontaneous response
- Conversation building

Field	Detail
Learning Method	Copy → Change → Create → Communicate
Output	Student answers questions and creates sentences without memorised scripts.
Student Gain	"I can make English while speaking."

Module 8 — Writing Your English

What students learn:

- Sentence writing
- Combining sentences
- Paragraph structure
- Describing, explaining, narrating
- Giving opinions
- Basic practical writing

Field	Detail
Learning Method	Sentence → Connected sentences → Paragraph → Real communication
Output	Student writes clear everyday English.
Student Gain	"I can put my thoughts into English."

Module 9 — English in Real Life

What students learn:

- Conversation
- Phone communication
- Asking for information
- Explaining problems
- Making requests
- Giving directions

- Social English
- Workplace basics

Field	Detail
Learning Method	Applying every previous module together in realistic situations.
Output	Student handles common English situations confidently.
Student Gain	Final outcome: from “I studied English” to “I can understand and use basic English.”

Course 2 — English for Freelancers

“Use English to communicate professionally, work with international clients and operate confidently as a freelancer.”

This is not Basic English plus freelance vocabulary — the entire methodology shifts toward professional communication.

Module 1 — Thinking in Professional English

What students learn:

- Casual vs. professional English
- Direct vs. indirect communication
- Professional tone
- Clarity and confidence
- Communication mindset
- Understanding client expectations

Field	Detail
Learning Method	Contrast and awareness building — comparing classroom English to real professional English.
Output	Student understands how professional English differs from classroom English.
Student Gain	Student begins thinking like a professional communicator, not a student reciting English.

Module 2 — Freelancer Vocabulary in Context

What students learn:

- Client, project, deadline, requirement
- Revision, scope, payment, delivery
- Feedback, proposal, contract, milestone, meeting

Field	Detail
Learning Method	Vocabulary learned inside real situations, never as isolated word lists.
Output	Student understands and uses essential freelance vocabulary naturally.
Student Gain	Student stops translating freelance terms and starts using them directly.

Module 3 — Client Conversations

What students learn:

- Introducing yourself professionally
- Understanding client needs
- Asking questions
- Clarifying requirements
- Discussing projects
- Confirming information
- Responding professionally

Field	Detail
Learning Method	Guided role-play built from real client-conversation situations.
Output	Student can conduct basic client conversations.

Field	Detail
Student Gain	Student can open and hold a client conversation without a script.

Module 4 — Professional Sentence Building

What students learn:

- Polite requests
- Suggestions
- Clarification and confirmation
- Explanation
- Agreement/disagreement
- Conditional language
- Professional modal verbs

Field	Detail
Learning Method	The learner is taught the structure behind communication, not isolated lines — e.g. turning “Send me the file” into a polite, professional, context-appropriate request.
Output	Student can turn simple English into professional communication.
Student Gain	Student can reshape any direct sentence into a professional one on the spot.

Module 5 — Freelancer Chat & Messaging

What students learn:

- Client messages and follow-ups
- Status updates
- Asking for information
- Explaining delays
- Confirming delivery
- Handling misunderstandings
- Responding to feedback

Field	Detail
Learning Method	Simulated real chat threads with client-style messages.
Output	Student can communicate with clients through chat confidently.
Student Gain	Student no longer freezes when replying to a client message.

Module 6 — Proposals & Professional Writing

What students learn:

- Proposal structure and opening
- Understanding the client's problem
- Presenting a solution
- Explaining process and timeline
- Pricing language
- Closing

Field	Detail
Learning Method	Structured writing practice moving from outline to full proposal.
Output	Student writes professional proposals instead of copying templates.
Student Gain	Student can build a proposal from scratch for a real client.

Module 7 — Email English

What students learn:

- Professional emails and subject lines
- Requests and follow-ups
- Updates and complaints
- Explanations and clarifications
- Closing professionally

Field	Detail
Learning Method	Model emails deconstructed, then rebuilt by the student for their own situations.
Output	Student writes clear professional emails.
Student Gain	Student's emails read as professional, not translated.

Module 8 — Meetings & Speaking

What students learn:

- Starting meetings
- Introducing ideas
- Asking questions
- Explaining work and giving updates
- Presenting ideas
- Agreeing/disagreeing
- Ending meetings

Field	Detail
Learning Method	Simulated full-length client meeting practice.
Output	Student can participate in an international client meeting.
Student Gain	Student can speak up and be understood in a live client meeting.

Module 9 — Difficult Client Situations

What students learn:

- Miscommunication
- Scope changes
- Late payments
- Revisions and mistakes
- Unrealistic expectations
- Delays
- Negotiation

- Saying no professionally

Field	Detail
Learning Method	Realistic conflict scenarios with guided professional responses.
Output	Student can protect themselves professionally without sounding rude or weak.
Student Gain	Student can handle a tense client situation calmly and professionally.

Module 10 — Real Freelancer Simulation

What students learn:

- A complete simulated project: client inquiry → discussion → requirement → proposal → negotiation → project update → revision → delivery → follow-up

Field	Detail
Learning Method	Full end-to-end simulation combining every previous module.
Output	Student completes an entire freelance project cycle in English.
Student Gain	Final outcome: the student can operate in English as a freelancer, not just “know freelancer English.”

Course 3 — Advanced English

“Turn functional English into confident, flexible and sophisticated communication.”

Not “learn more difficult grammar” — this course moves the student from consciously constructing English to expressing complex thought naturally.

Module 1 — Thinking Beyond Basic Sentences

What students learn:

- Connecting ideas
- Expanding thoughts
- Explaining reasons
- Giving examples
- Comparing and contrasting
- Qualifying statements

Field	Detail
Learning Method	Guided expansion from single ideas to fuller, reasoned thoughts.
Output	Student moves from “I like it” to expressing why, how, under what conditions and with what limitations.
Student Gain	Student's opinions start sounding reasoned, not flat.

Module 2 — Advanced Sentence Structure

What students learn:

- Complex sentences
- Compound sentences
- Clauses and relative clauses
- Conditionals
- Participles
- Sentence transformation
- Natural sentence rhythm

Field	Detail
Learning Method	Pattern exposure followed by guided sentence transformation.
Output	Student creates sophisticated sentences without memorising complicated formulas.
Student Gain	Student's sentences flow naturally instead of sounding built piece by piece.

Module 3 — Advanced Grammar Through Meaning

What students learn:

- Perfect forms
- Advanced conditionals
- Passive structures
- Reported speech
- Modality and emphasis
- Tense relationships
- Formal structures

Field	Detail
Learning Method	Meaning → Exposure → Pattern → Explanation → Use (never rule → memorisation → exam).
Output	Student understands why advanced structures are used and can use them appropriately.
Student Gain	Grammar becomes a communication tool, not a set of exam rules.

Module 4 — Natural Vocabulary

What students learn:

- Collocations
- Word families
- Synonyms and register
- Formal/informal vocabulary
- Phrasal verbs
- Natural word combinations
- Contextual vocabulary

Field	Detail
Learning Method	Exposure to natural word pairings instead of isolated word lists.
Output	Student stops translating individual words and begins thinking in natural combinations.
Student Gain	Student's vocabulary starts sounding native-like, not translated.

Module 5 — Natural Listening

What students learn:

- Fast speech and connected speech
- Reduced sounds
- Different speaking styles
- Main ideas and details
- Inference
- Tone and speaker intention

Field	Detail
Learning Method	Exposure to real, unscripted speaking styles rather than slow classroom audio.
Output	Student understands natural English rather than only classroom English.
Student Gain	Student can follow real conversations, not just textbook recordings.

Module 6 — Fluent Speaking

What students learn:

- Speaking spontaneously
- Storytelling
- Explanation and argument
- Discussion and opinion
- Persuasion
- Conversation management

Field	Detail
Learning Method	Extended, less-controlled speaking practice built on prior modules.
Output	Student can maintain longer conversations without mentally constructing every sentence.
Student Gain	Student speaks with less hesitation and more flow.

Module 7 — Expressing Complex Ideas

What students learn:

- Abstract concepts
- Problems and solutions
- Cause and effect
- Analysis
- Personal beliefs
- Business and social topics
- Professional topics

Field	Detail
Learning Method	Discussion-based practice on real, substantial topics.
Output	Student can explain what they actually think — not just what they have memorised.
Student Gain	Student can hold their own in a real debate or discussion.

Module 8 — Advanced Writing

What students learn:

- Structured paragraphs
- Essays and reports
- Arguments and explanations
- Professional writing
- Persuasive writing
- Editing

Field	Detail
Learning Method	Draft → structure → refine, moving from outline to polished writing.
Output	Student produces organised, natural written English.
Student Gain	Student's writing reads as considered, not translated.

Module 9 — Natural English & Communication

What students learn:

- Tone and nuance
- Indirect meaning
- Humour
- Politeness
- Cultural communication
- Formal vs. informal language

- Natural conversational patterns

Field	Detail
Learning Method	Exposure to subtext and cultural context behind everyday English.
Output	Student understands not only what English says, but what English means in context.
Student Gain	Student picks up on humour, politeness and hidden meaning, not just words.

Module 10 — Fluency Integration

What students learn:

- Full-cycle input: situation → understanding → pattern → thinking → speaking/writing → feedback → recall, applied across conversation, storytelling, presentations, discussions, explanations, professional situations and spontaneous questions

Field	Detail
Learning Method	Everything from the previous nine modules is combined and applied together.
Output	Student handles varied, unscripted real-life communication situations.
Student Gain	Final outcome: from “I can speak English” to “I can express myself in English.”
